

Folks, We have all heard that it can happen but we know have visual proof that steel Bx armor can be energized like a toaster oven coil. Apparently, a backhoe digging pulled on the lateral and stretched Phase 1, 2 and the neutral to all wedge together behind a lug in the meter pan and bridge. Hence, the quickest path to ground!!!

Jason Mignano, IAAI-CFI/ECT, CFEI, CFI, Sr. Fire Investigator, Fire Investigation Unit, Liberty Mutual Insurance, Direct Dial: 845-492-1662
